It is provided that the British government has the right to terminate the agreement at any time should the com-bine pursue a policy injurious to the interests of the British mercantile mar-

The agreement is signed by Gerald Balfour for the board of trade, Admiral Lord Kerr, senior naval lord, and Rear Admiral May, third naval lord for the admiralty; Sir Clinton Dawkins on behalf of the International Mercantile

behalf of the International Mercantile Marine company, and by the directors of the constituent companies.

The papers express satisfaction with the agreement between the International Mercantile Marine company and the British admirality, saying that it fully protects British interests.

The Standard points out that the Morgan combination has been indirectly the means of strengthening Great Britain's neval and commercial marine by precipitating the Cunard agreement, and thinks that the audacious enterprise of buying up British lines is not likely to be repeated for some time.

He had real capacity, unfailing good humor, generosity and a seeming sincerity that attracted to him a great many people. From the management of the fire engine company he became the leader of a ward and at 29 years of age was an alderman. After the expiration of his term he was elected to congress. He now became supervisor, was chairman of the board in 1856 and from that year, although his influence was often temporarily overthrown, he was the only real "boss" in sight until downfall

Until the year 1870, when Tweed was 47 years old, he had been school com-missioner, deputy street commissioner and state senator, but it was in that with his appointment to the office of deputy commissioner of public works, that his brief career of unpre-cedented public plunder really began and ended.
